HURRICANE PREPAREDNESS TIPS – DAY TWO ASSIGNMENT

Please consider doing one small thing **TODAY** that would better prepare you for the threat of a hurricane coming our way.

Here are the three things you must do in order to plan for financial recovery after a disaster:

- Gather important papers and documents
- Prepare a home inventory
- Ensure that your insurance is adequate to cover your needs in the event of a disaster

Today we are going to start preparing a special packet in case of disaster. You can store many of these documents electronically on a CD, disk, or USB flash drive. You can scan some of these original documents into your computer or have them scanned in so that you can have an electronic archive. Keep this packet together in one accessible but secure place so you can “grab them and go”.

Today you are going to.....

- Purchase a plastic tub with a good sealing lid and label it **Disaster Info!!!**
Take It
- You are going to add the following to your **Disaster Info** tub

- Checking and banking account numbers and bank names
- List of savings and investments. Include CDs, stocks, bonds and mutual funds
- Credit card list and phone numbers to the companies who provide them

This is your assignment for today. Assemble all of the above and put them in your Disaster Tub!!!!

- Turn in for more tomorrow!!!!
