

LONGLEAF ACADEMY

Foundations

Longleaf Foundations is a condensed course from the *Longleaf Academy Program*, designed for those that would like to begin building a solid foundation of longleaf knowledge. Expert instruction through a combination of video lectures and interactive discussions will jump-start your longleaf education.

Topics covered:

- cultural & natural history
- fire and longleaf
- site preparation
- seedling quality
- planting techniques
- restoring groundcover
- managing for wildlife
- and other management topics.
