2026 Cotton Variety Trial

UF IFAS UNIVERSITY of FLORIDA

Fourteen varieties and experimental lines were planted on June 4, 2026, as a randomized complete block design with thirty six-inch row spacing, three replicates and twenty-foot four row plots. The trial was planted late due to rainfall patterns in May.

Fertilizer Application:

Pre- Planting: 25N - 40P - 80K

Side dress 1: 30N -80K

Side dress 2: 60N
