THANK YOU FOR YOUR SUPPORT!

THE UF/IFAS INDUSTRIAL HEMP PILOT PROJECT PARTNERS WORKSHOP SERIES

will be offered across the state for prospective grower and industry partners to

- get an update about the industrial hemp program at UF,
- facilitate a discussion about the direction of the new industry, and
- identify how folks can get involved in the UF program.

OUR GOALS ARE TO

- expand the scope of our program through Project Sponsors and
- directly engage growers and industry groups as 'Qualified Project Partners'.
