## Trip Information

The 2026 Educational Feedlot Tour is hosted by UF/IFAS Extension with the support of the Florida Cattlemen's Foundation and numerous sponsors. We will be traveling to the Texas Panhandle to visit multiple feedlots. The focus of the trip is to build relationships and learn more about the role of intentional management at the cow-calf level in Florida. The goal is to take what we learn and apply it to benefit the overall success of the Florida cattle industry.
